## 17. Review of Performance

The Group's revenue for the third quarter ended 30 September 2009 decreased by 9.2 per cent compared to the corresponding quarter in the previous year. The lower revenue was mainly due to the later timing of the Government Budget announcement this year compared to 2008. This had resulted in a shift of the trade stocking-up on beer from Quarter 3 last year to Quarter 4 this year, which had a significant impact on domestic sales. This was partly mitigated by the inclusion of the acquired subsidiary Luen Heng F&B Sdn Bhd (LHFB).

Despite the lower revenue mentioned above, the Group's Profit Before Tax for the quarter of RM29.2 million was only 5.2 per cent or RM1.6 million lower than the same period last year. The lower decline was mainly attributable to lower operating costs arising from cost saving initiatives, higher share of profit from the associate company and the positive contribution from LHFB.

## Interim Financial Report for the Quarter Ended 30 September 2009

---

On a cumulative nine months ended 30 September 2009 basis, Group profit before tax of RM75.7 million was 13.0 per cent or RM11.3 million lower than the same period in the previous year in line with expectation. The decrease was mainly due to the earlier timing of the Chinese New Year where some of the sales were recorded in December 2008 as well as the later timing of Government Budget announcement as mentioned above.

It is, however, encouraging to note that the Group had gained market share by 0.5 percentage points for the period ended 30 September 2009.

### **18. Variation of Result against the Preceding Quarter**

The Group's revenue for the quarter increased by 13.6 per cent or RM29.0 million as compared to the preceding quarter. This result follows the trend as in previous years with fewer activities in the second quarter following the strong first quarter performance arising from higher domestic sales during the Chinese New Year festive period. Various cost saving initiatives implemented had also resulted in lower cost of sales and lower operating costs. Consequently, the Group's Profit Before Tax increased by 71.0 per cent or RM12.1 million.

### **19. Current Year Prospects**

On a positive note, the Brewing Industry is pleased to note that there is no increase in duties for beer and stout products in the recent 2010 Government Budget announcement.

As mentioned above, the later timing of the Government Budget announcement is expected to result in higher domestic sales in Quarter 4 this year and hence a better performance in the quarter.

In light of this, the Group expects the full year 2009 performance to be satisfactory, despite the lower profit in the first nine months of the year.

The acquisition of Carlsberg Singapore Pte Ltd (as per Note 9) is not expected to have a significant impact on the Group's earnings for the financial year 2009.
